The Battle of Brains
An International Techno - Management Fest

COLLEGE OF ENGINEERING GUINDY

College of Engineering Guindy is India's oldest ever palace risen and dedicated to the welfare and innovation of science, engineering, and technology! Being one among the leading technical institutes of the nation, it stands in the center of Chennai and as a landmark of Guindy for 225 long years! CEG has crossed milestones not only in academics, but also has its firm history of achievements in the sectors of academics, innovation, sports, culturals, and techno-management events, etc.

CEG TECH FORUM

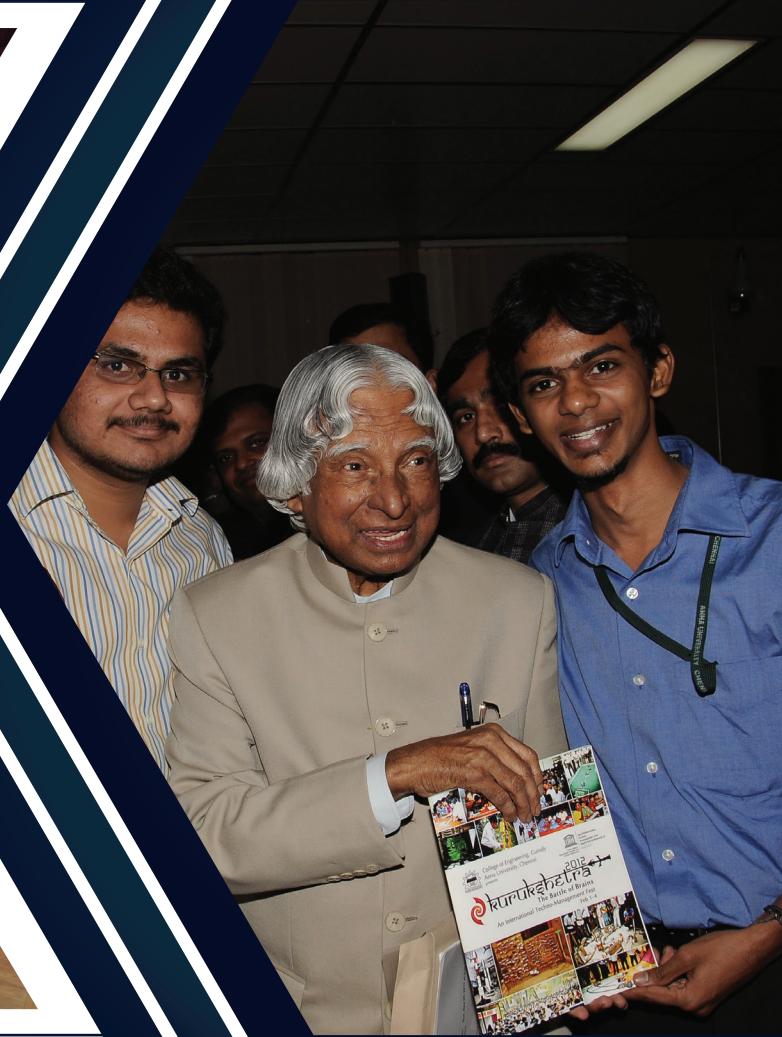

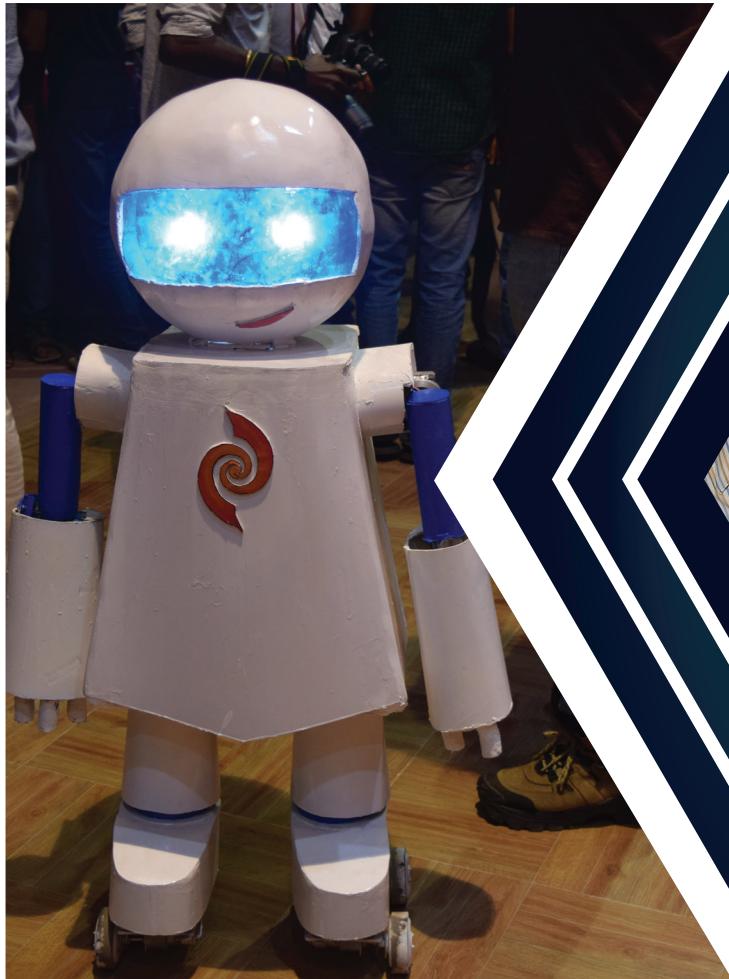

Among 25+ student-run, non-profit organizations and clubs of this college, CEG Tech Forum occupies the first place. CTF is an ISO 9001:2015 certified organization. CTF represents the technical benchmark of CEG's student body with its well-structured corporate-style constitution, trend-setting technological initiatives focused towards social concern.

KURUKSHETRA

Kurukshestra is the India's first ever UNESCO recognized international level techno-management festival, conducted for three days in the month of February, every year in CEG. The fest is hosted by CEG Tech Forum. Thousands of students across various states of the nation come here to participate in this fest. Get ready to witness the magnificence in kurukshestra 2020!

"Distance never stopped goals"

Xceed, the forerunner of Kurukshetra excellently performs the duty of crusading to carry extravagantly the pride of Kurukshetra nationwide. We mainly focus on outstretching to the other side of the country consisting of students and corporate companies to guide standard participation to Kurukshetra. Xceed conducts many fascinating events and marvellous workshops organized by the enthusiastic team of CEG Tech Forum. The winners gain a pathway to showcase their caliber and qualities at the final stage of Kurukshetra.

NATIONAL XCEED

Xceed being the precursor of Kurukshetra is conducted in various colleges across the country. The bot building, coding & technical events are the tip of the iceberg of the spectacle that is to occur. These events test the technical, analytical, statistical and coding skills of the participants.

Xceed also features an extensive line-up of interactive work-shops that help students enrich their technical and managerial skills and also nurture an individual's holistic development.

CORPORATE XCEED

Corporate XCEED is the latest brain child of the XCEED team to explore new uncharted lands pushing the boundaries of Kurukshetra. This novel pursuit features general, technical and managerial events being conducted in various corporate pavilions across the city.

Kurukshetra is the only tech-fest to conduct events among corporates grade symbolizing its excellent corporate relationship and network. It provides an equal opportunity to both the students and corporates to benefit mutually from their knowledge and experience.

K! A R N I V A L

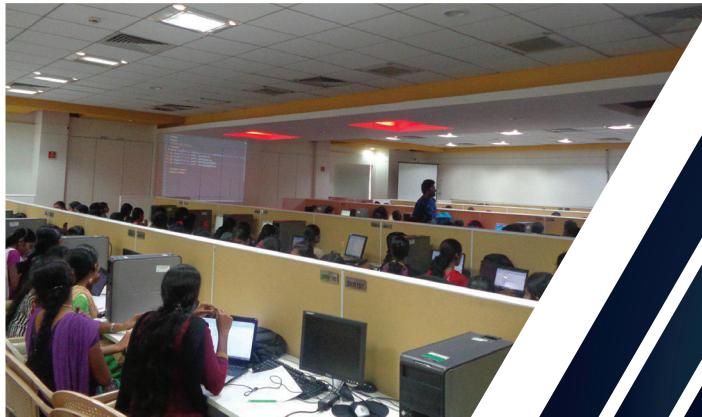

K!odefix

Techies from all over the country gather for this signature event of Xceed. Kodefix is the ultimate test of endurance and knowledge. Participants compete in a 24-hour challenge to finally develop a product that not only stands out but also serves for the greater good.

Battle of Bots:

Like it or not, robotics is the future, and this event allows you to take a glimpse at the expertise of the future robotic masterminds of our nation. Being the majestic event conducted by Xceed, it is attended by hundreds of students from more than 15 colleges. BOB sure is a spectacle to behold.

Workshops

Xceed conducts several workshops on the bleeding edge of technology all over the country. These workshops play an important role in creating awareness of the ever changing landscape of technology among students. Hundreds of students attend Xceed workshops every year.

X!Zeal

This is one of the quirkiest events conducted by Xceed which expands its reach beyond colleges and into the corporate world. X!Zeal is a quiz event conducted exclusively for people working in the corporate world.
